FOREWORD

In 1960 we published Impex Reference Catalogue of Indian Books in order to meet a long felt need fora comprehensive catalogue of current Indian books in English language. The publication was well received by all interested and the users pressed us hard to bring out its supplement so that the work may be up-to-date.

The present IMPEX-SUPPLEMENT gives you all informations which were lacking in the main work IMPEX.

The new IMPEX-SUPPLEMENT 1960-62 incorporates all data on new books, new editions and reissues of old publications, besides filling the gaps which appeared in the popular IMPEX Reference Catalogue, inspite of our best endeavours, owing to the paucity of information available at the time of going to the press.

The SUPPLEMENT is classified under two heads to ensure easy and effortless reference of the information desired, and to avoid the irritation of "hunting". Complete bibliographical details of about 10,000 titles are immediately at your finger tips. An alphabetical list of author's names along with the respective titles and other details in the first section and alphabetical list of all the titles in the second section are the salient features of the IMPEX-SUPPLEMENT 1960-62. Where no author's name is available the title alone appears under author index. A separate list of publishers with their full addresses provide additional useful information.

While publishing this SUPPLEMENT we have honoured the criticism too. This SUPPLEMENT is a "catalogue on purely dictionary lines - author and title" and however the consultor need not "speculate under which of the four dozen headings his title is likely to be". It is a simple timesaving way to find out what books are available in English.

Perhaps we shall not be blamed of blowing our own trumpet if we say that IMPEX was approved by the Government of India for display in all the international book exhibitions held in 1961 and 1962. This is nothing but an acknowledgement of the value of the book.

The publication of IMPEX Reference Catalogue has been a 'labour of love' of our pioneering endaevours. And the much gratifying generosity which marked the reception of the IMPEX Reference Catalogue encouraged us to bring out a SUPPLEMENT and thus bringing it up-to-date. Now the IMPEX Reference Catalogue and IMPEX-SUPPLEMENT 1960-62 are reliable guides in bibliographical field. As a matter of fact IMPEX is a 'must' for those who are interested in Indian books as it is the only catalogue of its kind about available Indian publications in English.

A limited number of copies of IMPEX Reference Catalogue are available for those who have not provided themselves with this catalogue.

Although all possible care has been taken to verify each entry it is quite possible that some mistakes might still have crept in, for which we sincerely apologise.

Digitized by Arya Samaj Foundation Chennai and eGangotri

We are grateful to all those publishers who have given us their co-operation and this great opportunity of bringing their publications to the notice of booksellers, librarians, scholars and educationists all over the world and we sincerely hope that they would keep us regularly informed of all their 'in-coming' and 'out-going' publications so that we may make "IMPEX" as comprehensive, up-to-date and reliable as possible.

Inspite of great care, some typographical and printing mistakes must have crept in. We would be thankful if such mistakes or misprints are pointed out to us so that the next edition may be free from them. We would also gratefully welcome constructive suggestions for the improvement of what we are offering now.

HOW TO USE IMPEX SUPPLEMENT

Impex-supplement consists of two indexes bound in one volume : the first is arranged alphabetically by author and editor ; the second by title.

Author entries regularly include the following bibliographical information : author, title, price, publisher, subject, and year of publication when the information is given in the publisher's trade list. When circumstances allow, the following additional information appears in the author entry : edition, number of pages, number of volumes, editor, translator, grade range, indication that the book is illustrated, and binding, if publisher's trade list indicates it is other than cloth over boards. Title entries regularly include title, author, and other details as mentioned in the author entries.

Arrangements

Title entries which have got no personal authors, appear under author index with their first word in capitals, e.g.

"AVICENNA commemoration volume" published by Iran Society, Calcutta. or

"DIRECTORY of social welfare agencies in Baroda" published by Oriental Institute, Baroda.

Within each index the entries are filed "alphabetically by word" with the exceptions that initial articles of titles in English are deleted from author and title entries.

When two author or editors are responsible for a book, full bibliographical information is included in the author entry for the author or editor named first. A *see* card under the second named author or editor directs attention to the entry under the first named author or editor. If more than two authors or editors are responsible for a certain publication, only the name of the first is given, followed by et al.

Subjects have been indicated against author as well as title entries mainly for guiding the user to which subject the title belongs.

In some entries we have added the word (Text) which means that it is a text or help book and only for the use of Indian colleges.

Government Publications

In the end of both the indexes, a supplementary section listing some government publications, has been included. As the total number of titles published by the central and state governments is quite big and as these normally go out of print soon after its publication, we have taken only those books which have been published in 1960-62. The publication of semi-government and quasi-government bodies like Central Statistical Organisation, Indian Council of Medical Research, Indian Council of Agricultural Research have also been listed in this section.

Surnames & their Variants

Finally we request the user to look up surnames and all possible variants, e.g.

Agarwala,	Agarwal	Aggarwala	Aggarwal	Agrawala	Agrawal
Bhattacharya		Bhattacharyya	Chatterjee	Chatterji	

Price

Prices mentioned are subject to change.

BOOKS FROM LEIPZIG

Prof. Dr. Walter Schmitt

FUNDAMENTALS OF SURGERY

XVI, 566 pages with 428 illustrations and coloured plates, size 6½ × 9⅝ in., full cloth. Price Dmarks 29.—

This big surgery manual, which provides exhaustive information on latter-day pain deadening methods, antiseptics and asepsis, x-raying to diagnostic and therapeutical ends, and chemotherapy, has met with remarkable resonance from specialists at home and abroad. The book, purporting to provide valuable advice to the surgeon, but also to the practitioner and the specialist in a field of work that up to-day has become nearly too vast, is published now for the first time in a revised and enlarged edition in English.

TECHNICAL FUNDAMENTALS

We just are beginning with the publication of a series entitled "Technical Fundamentals" in English, French and other languages. This "Technical Fundamentals", owing to their presentation of basic facts with illustrations being a governing factor, are intended to provide valuable aid for the training of qualified specialists in all those countries where branches of industry are being set up from scratch. For these countries this series is an indispensable aid to training and sel-tuition of the technical junior staff.
